About Me

Data Science undergraduate at the **Indian Institute of Technology, Madras (IIT Madras)**, pursuing a **B.S. in Data Science and Applications**, with plans to complement it with a **B.Tech in Computer Science** from a Tier 1 institution. Raised in Muzaffarnagar, India, and educated through the CBSE board, with a strong foundation in analytical thinking built early on. Recently developed a growing interest in **media editing** and **web development**, complementing a data-driven skill set with creative and technical versatility. A curious, self-driven learner with a passion for writing, always looking to blend analytical rigor with creative expression.

Skills

Programming: HTML, CSS, JavaScript, Python, Java, DSA, DBMS, SQL

Data Science: Data Analysis, Data Visualization, Machine Learning, Deep Learning, NLP

Creative: Writing, Media Editing, Social Media Management

Web Development: Front-end Development, Back-end Development

Tools: Git and Github, Docker, AWS, MongoDB, MS Office, Canva

Projects

Personal Portfolio Website:

- Designed and built a personal portfolio site with an animated landing page, accordion-style resume section, and dedicated pages for projects and research

Experience

Peer Tutoring - Science and Mathematics

[2024-26]

- Tutored 2 class 10th students in Science and Mathematics, focusing on concepts clarity and exam preparation

FreeLancing - web development and data management

[2023-24]

- Performed data entry and summarization for an organization, processing and condensing raw data into structured, usable formats
- Delivered web development work including building and styling client-facing pages

Education

B.S. in Data Science and Applications

IIT Madras - (2026 - Present)

CGPA: Currently Not Available

Senior Secondary (XII)

CBSE-2026

Percentage: 83%

Secondary (X)

CBSE-2024

Percentage: 91%
